**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Ex parte Quayle***

1. This application is in condition for allowance except for the following formal matters:

#### ***Drawings***

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "12" has been used to designate both "a printing section" (page 10, line 9, etc. and Figure 1) and "a sheet supply tray" (Figure 1). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 13 and 14 (Figure 1). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the

description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The drawings are objected to because "YES" and "NO" of step S12 of Figure 19 should be labeled as "NO" and "YES", respectively. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

5. The disclosure is objected to because of the following informality: page 19, line 5, "100" should be "130". Appropriate correction is required.
6. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

7. Claims 1-25 are allowed.
8. The following is a statement of reasons for the indication of allowable subject matter:

Claim 1 is allowable over the prior art of record because the prior art of record does not teach or suggest a processing medium conveying device comprising an error detecting unit that detecting all errors that will (emphasis added) occur on the selected

processing paths and a controller that reads resolution methods for clearing the detected errors from the memory, in combination with the remaining claimed limitations.

Claim 19 is allowable over the prior art of record because the prior art of record does not teach or suggest a processing medium conveying device comprising a controller that reads, from the first memory, a plurality of resolution methods each for a corresponding one of the detected errors and displays a plurality of comprehensive resolution methods on the displaying unit based on the read resolution methods.

***Citation of Pertinent Prior Art***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Altrieth, III et al. (US Pat. No. 5,583,617) discloses an image forming apparatus comprising a plurality of processing units; a specifying unit; and a display unit.

Miyoshi et al. (US Pat. Pub. No. US 2003/0026619 A1) discloses a display unit for displaying at least one resolution method.

Kurita (US Pat. No. 6,608,974 B2) discloses an image forming apparatus comprising a plurality of processing units and a display unit.

Schroath et al. (US Pat. Pub. No. US 2004/0213590 A1) discloses an image forming apparatus comprising a plurality of processing units; a specifying unit; a status detecting unit; and a display unit.

Tsujimoto (US Pat. Pub. No. US 2005/0111015 A1) discloses an image forming apparatus comprising a plurality of processing units; a determining unit, and a display unit.
